GREEN SPACE FESTIVAL

BY POSTAL 3, SPAIN

GREEN SPACE FESTIVAL

October 30th, 2024

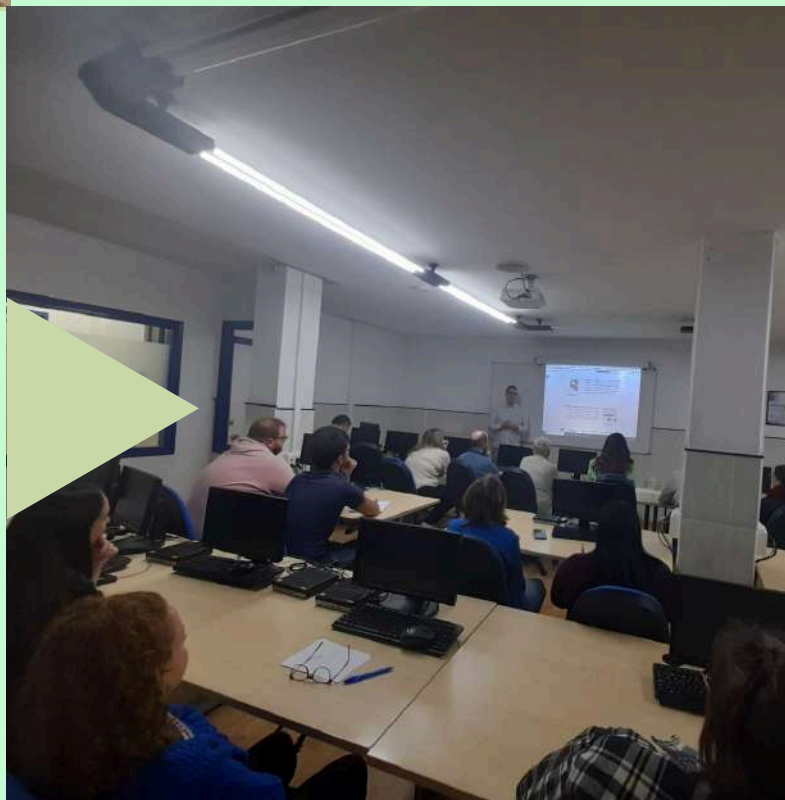

The Green Space Festival held in Vigo, Spain, was a successful event in which different relevant profiles of the target group of this project could get to know in depth the **valuable contribution** of Green Space in the field of promoting green activities among local youth.

It included a collective **reflection** on the situation of the green environment, its importance, and the difficulties to **promote positive values in their environment**; as well Green Space Handbook and Guidelines were presented in depth from a **pedagogical** and **practical** point of view, as a **useful** tool for facilitators, trainers, educators and social workers.

The participants had the opportunity to know about the **Green Actions and activities** for youth carried out, to exchange opinions about their **potential application**, as well as to ask **questions** about their contents, and then to open a short **debate** about practical **possibilities of application** in the Galician green environment, and their importance for society.

Summarising, the Festival achieved to disseminate the **contributions and benefits** of the Green Space project, **encouraging** to the promotion of a **green culture**, and to support the promotion of **more green actions**, as well as the need and means to engage youth in their design, organisation and realisation linking them with the local environment and society.
