GREEN SPACE FESTIVAL

November 28, 2024

The **Green Space Festival** "Generation of the Green Future" took place in Bratislava, Slovakia. The event brought together participants to explore the importance of green thinking, **innovative digital solutions** to support **green activities** and a variety of engaging educational methods.

The event featured inspiring presentations on topics such as **creating and managing green spaces**, fostering sustainable communities and integrating creative approaches to sustainability education. Participants also discovered innovative tools, **maintaining green spaces** (including, for example, spreading awareness of **eco-friendly products**).

Participants had the opportunity to learn about the latest trends, challenges and successes in **sustainable development** and gain practical insights into how **green initiatives** can make a significant impact in their communities. The hands-on approach encouraged participants to imagine how these ideas could be adapted and implemented in their local contexts.

In addition to the discussion, **the festival promoted the idea** of creating new contacts, establishing cooperation on various topics in the field of environmental sustainability. With regard to youth and the use of their free time for meaningful activities such as green solutions, the use of free space to **green space**.

GREEN SPACE GREEN ACTIONS

BY INNOVATION OFFICE, LITHUANIA

1. MOBILE APP TO TRACK MARKED WILD ANIMALS

This green action aims to help prevent road accidents by alerting drivers about nearby wildlife.

This would not only contribute to **animal conservation** but also ensure our travel safety.

2. AUTUMN BOUQUET CREATION WORKSHOPS

The aim is to raise awareness about **responsible resource usage**, showing that instead of often purchased plastic decorations, we can easily create autumn compositions ourselves. The participants used old, unnecessary cardboard and various natural treasures.

3. #TRASHTAG

This green action aims to encourage everyone to **clean up littered areas** and share their efforts on social media to inspire others.

We seek to raise awareness about waste management and promote active community involvement in preserving natural spaces.

4. ADDITIONAL IDEAS

- An **orchid care** initiative, which purpose is to spread awareness on how to properly care for and preserve these flowers.
- **5 business models** were developed:
 - 🌿 botanical garden for the local community;
 - 🍎 gardens on terraces for apartment communities;
 - 🌱 greenhouses in offices;
 - 💧 recycling program for cosmetic bottles/packaging;
 - 🌸 orangery for children.

GREEN SPACE GREEN ACTIONS

BY POSTAL 3, SPAIN

1. RECYCLING AND GREEN AWARENESS MARKET

The participants carried out the production and **sale** of articles made from **recycled materials**, as well as products and emblems to **raise awareness** about respect for the environment and animals.

2. CLEAN AND PLAY

Participants **cleaned** the beach **highlighting** the need not only to clean up a natural place that is usually very busy, but also to collaborate by not making it dirty. After that, several **games** were organised on the cleaned surface, as an emblem of **taking care of our natural environment**.

3. KNOWING THE FOREST

A **visit** to surrounding **forests** was organised, including a **hiking** session during which an expert showed the **variety of trees** and plants in the area, learning about the different **species**, their relationships influences and benefits on the local ecosystem

4. ADDITIONAL ACTIVITIES

One of the most **positive** terms of the Green Actions is that have generated groups of participants that agreed to **carry out** or **participate** in more actions of this type, including **visits** to the local environment, beach or forest **clean-ups**, or raising local **awareness** of its, establishing this as a valuable seed for a more sustainable future.
